

BLACK SLUICE

INTERNAL DRAINAGE BOARD

Tel No: 01205 821440

Fax No: 01205 820671

Station Road, Swineshead
Boston, Lincolnshire, PE20 3PW

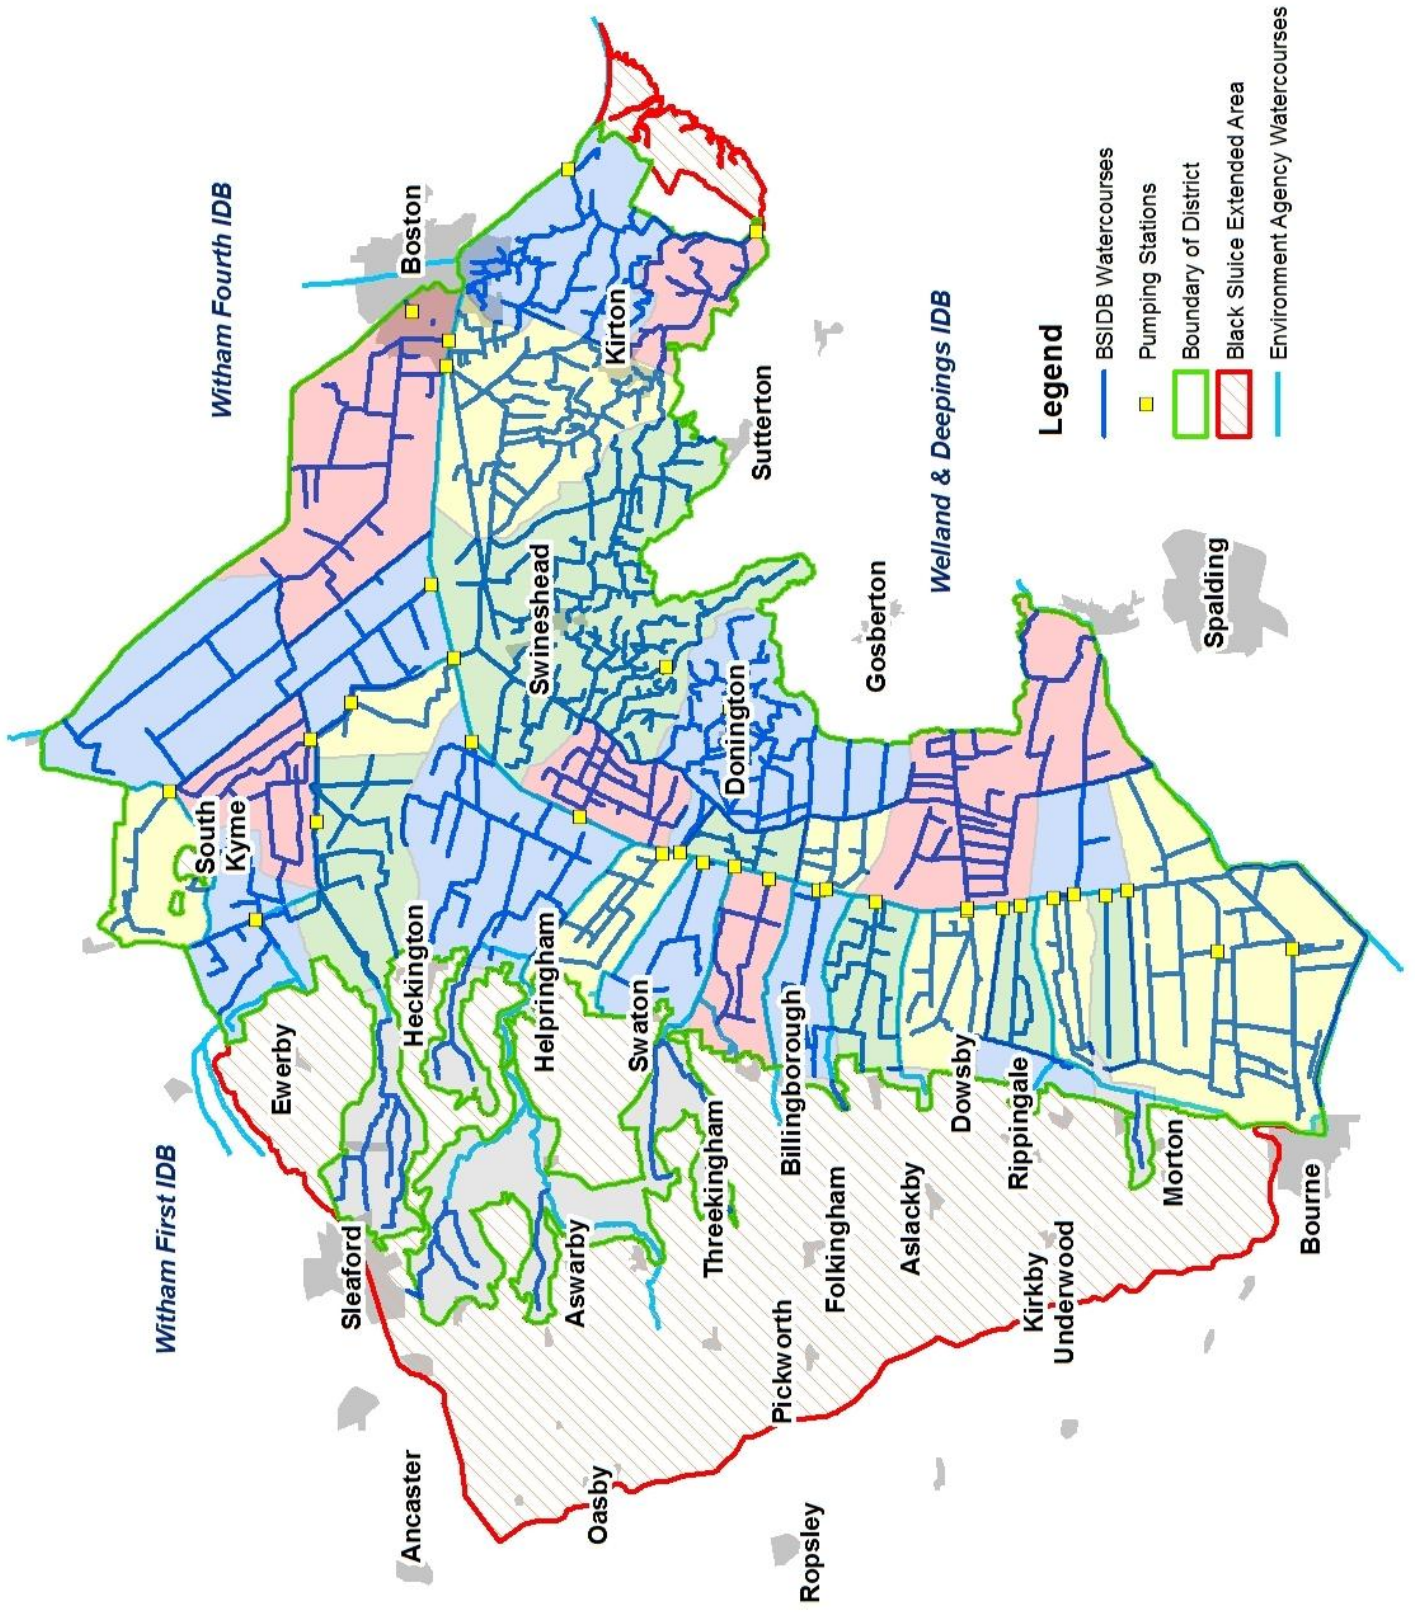

On behalf of the

Lincolnshire Lead Local Flood Authority & Lincolnshire Internal Drainage Boards

A joint approach to Section 23 Consenting, and Sections 21, 24
and 25 Enforcement of the Land Drainage Act 1991

APPLICATION FOR ORDINARY WATERCOURSE LAND DRAINAGE CONSENT

Black Sluice IDB Extended Area Only

Legend

- Boundary of District
- Black Sluice Extended Area
- Environment Agency Watercourses

BLACK SLUICE INTERNAL DRAINAGE BOARD

SECTION 23 OF THE LAND DRAINAGE ACT 1991 AND / OR DRAINAGE BOARD BYELAWS

APPLICATION FOR CONSENT

PLEASE READ THE ENCLOSED GUIDANCE NOTES FULLY BEFORE COMPLETING THIS FORM

SECTION 1 – APPLICANTS DETAILS

WHAT IS THE CLASSIFICATION OF THE APPLICANT? (Please tick one)

Private Individual

Company

Group of Individuals

Public Body

APPLICANT(S) NAME

COMPANY, GROUP OR
PUBLIC BODY NAME (if applicable)

COMPANY REGISTRATION NUMBER
(if applicable)

ADDRESS

POSTCODE

LANDLINE TELEPHONE NUMBER

MOBILE TELEPHONE NUMBER

EMAIL ADDRESS

SECTION 2 – AGENT OR ALTERNATIVE CONTACT DETAILS

CONTACT NAME

ADDRESS

POSTCODE

LANDLINE TELEPHONE NUMBER

MOBILE TELEPHONE NUMBER

EMAIL ADDRESS

SECTION 3 – SITE INFORMATION AND DESCRIPTION OF WORKS

APPLICANTS INTEREST IN LAND
(ie. Owner, Tenant)

WATERCOURSE NAME (if known) _____

SITE ADDRESS _____

OS Field No/s _____ **Parish** _____ **NGR** _____

DETAILED DESCRIPTION OF PROPOSED WORKS

Please include all details of:

- *Pipe lengths and diameters*
- *Headwalls and/or connecting manholes*
- *Backfill materials*
- *Flow restriction devices (i.e. penstocks, flap valves, etc)*

NUMBER OF STRUCTURES INCLUDED IN THE APPLICATION

PLANS AND SECTIONS

Details of all supporting plans and sections must be provided. Continue on a separate sheet if needed. Please see the guidance notes for further information.

Drawing Title / Description	Drawing Number	Revision Number	Date
Site Location Plan *			
Existing Site Plan *			
Cross Section Drawing *			

***these drawings are required to be supplied as part of any application.**

SECTION 4 - CONSTRUCTION DETAILS

Are the works of temporary or permanent construction? Temporary
Permanent

If temporary, for how long _____ days / months / years

Anticipated Construction Start Date _____

Anticipated Construction Completion Date _____

SECTION 5 – OTHER APPROVALS

Please provide details of any planning permissions either granted or under consideration that relate to these proposals.

Please note that the Board's consent does not override the need for any other consent or approval that may be required before the works are undertaken.

PLANNING AUTHORITY

PLANNING APPLICATION NUMBER

APPROVAL DATE

Are the works associated with Sustainable Drainage Systems (SuDS) ? Yes No

SECTION 6 – ENVIRONMENT AGENCY INTERESTS

Do the proposed works involve the following?

Impounding (holding back water)	<input type="checkbox"/>
Abstracting (removing) Water	<input type="checkbox"/>
Fish or fisheries	<input type="checkbox"/>
Disposing of Waste Material	<input type="checkbox"/>
Water Quality	<input type="checkbox"/>

If any of the above are affected, please contact the Environment Agency on 03708 506 506

SECTION 7 – FUTURE RESPONSIBILITY

Contact name, address and telephone of person or organisation responsible for maintaining the works:

During Construction

Following Construction

SECTION 8 - ENVIRONMENTAL CONSIDERATIONS

The Board have a legal duty to protect and improve the environment. The effect that proposed works may have upon the environment must therefore be considered.

Please provide details of the effect the proposed works will have on the environment together with any measures you intend to implement to offset any negative environmental impacts.

Please note that works involving bank disturbance (e.g. temporary construction activities, culverting, dewatering etc) is highly likely to have an impact upon protected species and protected habitat. In these circumstances the Board recommend an environmental appraisal is undertaken by a suitably qualified ecologist.

Please contact the Board if you are unsure about this section or consider this section does not apply to your works.

SECTION 9 - DECLARATION

Please read through this list and tick the items you are sending with this application.

- | | |
|---|--------------------------|
| Completed Form with any associated documents and calculations | <input type="checkbox"/> |
| Fee of £50 per temporary or permanent structure | <input type="checkbox"/> |
| Environmental/Ecological Reports | <input type="checkbox"/> |
| Method Statement | <input type="checkbox"/> |

The Data Protection Act 1998

The Board will process the information you provide to enable the application to be determined.

The Board may also process or release the information to:

- offer you documents or services relating to environmental matters
- consult the public, public organisations and other organisations (for example, the Health and Safety Executive, local authorities, the emergency services)
- carry out research into environmental issues and develop solutions to problems
- provide information from the public register to anyone who asks
- prevent anyone from breaking environmental law, investigate cases where environmental law may have been broken, and take any action that is needed
- assess whether customers are satisfied with our service and improve it where necessary
- respond to requests for information under the Freedom of Information Act 2000 and the Environmental Information Regulations 2004 (if the Data Protection Act allows)

The Board may pass the information on to our agents or representatives acting on our behalf.

By signing below you are declaring that, as far as you know, the information given in this application, including the map and any supporting documents, is true.

SIGNATURE(s)

NAME

COMPANY NAME

(if applicable)

POSITION

(if on behalf of a company, group of individuals or public body)

DATED

Please return this form to:

**Black Sluice Internal Drainage Board

COMPLETING THE APPLICATION FORM

THE BOARD STRONGLY RECOMMEND YOU CONTACT THE BOARD FOR ADVICE ON THE PROPOSALS BEFORE COMPLETING THIS FORM AS ERRORS AND OMISSIONS MAY SIGNIFICANTLY DELAY THE APPLICATION BEING DETERMINED.

SECTION 1 & 2 – APPLICANTS AND AGENTS DETAILS

Applications from individuals should include the full name of the applicant. The name provided will be the name specified on any Land Drainage Consent granted.

To apply as a company, it must be a registered company formally registered with Companies House. The name provided will be the name specified on any Land Drainage Consent granted. The company name, as registered with Companies House, company registration number, and the full name of the company director, and their official position should be provided.

Applications from groups of individuals or public bodies should include the full name of the group or organisation. The name provided will be the name specified on any Land Drainage Consent granted.

If you are acting as an agent or on behalf of another individual, a company, group of individuals or a public body, please provide appropriate contact details in Section 2.

SECTION 3 - LOCATION AND DESCRIPTION OF PROPOSED WORKS

Please state what interest the applicant has in the land where the works will be carried out (e.g. landowner, tenant etc.). If the applicant is not the owner of the land subject of this application the landowner's permission should be obtained prior to any works commencing.

It is important that the proposals are accurately described and the number of individual structures that require consent is specified.

A site location plan which clearly identifies the location of the proposed works is required. It is recommended the site is clearly marked showing any other nearby land within the applicant's ownership.

To consider the proposals the Board need to receive plans and drawings, drawn by a competent engineer or surveyor and showing Ordnance Datum Newlyn (the height above sea level).

The following drawings, drawn to an appropriate scale, will be required:

Location Plan – For all applications

This must be at an appropriate scale. It must clearly show the general location of the site where the proposed work will be carried out and include general features and street names. It must also identify the watercourse and other bodies of water in the surrounding area.

'Existing' Site Plan – For all applications

This plan should show the site, including all watercourses and existing features within the site such as trees, fences, buildings, structures etc.

The position of any structures which may influence local river hydraulics, including bridges, pipes and ducts, ways of crossing the watercourse, culverts and screens, embankments, walls, outfalls and so on should be clearly marked. Existing fish passes or structures intended to allow fish to pass upstream and downstream should also be included.

'Proposed' Site Plan – For all applications

This plan should show the site and clearly identify any new works or structures that are proposed within any watercourse.

Additionally any works over, under or within 9 metres of a Board maintained open watercourse or culvert must be clearly marked.

All items must be clearly identified with all relevant heights, lengths, widths and diameters clearly marked as required.

For structures or planting close to watercourses it is important that the distance between the top edge of the watercourse bank, or outside edge of the culvert, is clearly indicated.

Cross Section Drawings – For all applications

Where works encroach into any watercourse, cross sections both upstream and downstream of the proposed works should be provided. Cross sections should be drawn as if looking downstream on the watercourse and should include details of existing and proposed features and water levels.

Where structures are proposed alongside Board maintained watercourses the distance of separation between bank top and the edge of the structure should be clearly shown.

Longitudinal sections – For in channel structures

Longitudinal sections, extending both upstream and downstream of the proposed works and taken along the centre line of the watercourse are needed. These must show the existing and proposed features including water levels, bed levels and structures.

SECTION 4 - CONSTRUCTION DETAILS

Separate consents may be required for the permanent works and any temporary works that do not form part of the permanent works. Temporary works could include, for example, cofferdams (watertight enclosures) across a watercourse, or temporary diversions of water while work is carried out.

For any temporary work, a “method statement” must be provided to support the consent application. This should include details of the specific measures proposed to keep disruption to a minimum and reduce any unwanted effects while the work is being carried out.

It is important to specify approximately when the works are proposed to start and how long they are expected to take. When works are being planned it is important that enough time is allowed for your application to be determined and consent issued.

SECTION 5 – OTHER APPROVALS

Please provide details of any planning permissions either granted or under consideration that relate to these proposals.

SECTION 6 – ENVIRONMENT AGENCY INTERESTS

Please tick the appropriate boxes. If any of the above are affected you may need to apply for additional licences or consents from the Environment Agency before you start work. You should make sure that you have enough time to get all approvals you need before you start work. If you don't, this could delay the work.

SECTION 7 – FUTURE RESPONSIBILITY

The individual or organisation responsible for maintenance both during construction work and after the works have finished must be specified. It is important to note that the consent will transfer to future owners if ownership changes in the future.

In certain instances the Board may require a Deed of Indemnity to be deposited with Land Registry to establish future responsibilities. If this is needed the applicant will be required to meet any costs incurred by the Board.

SECTION 8 - ENVIRONMENTAL CONSIDERATIONS

The Board have a legal duty to protect and improve the environment, so the environmental effects of proposed works must be considered when determining the consent application.

Please contact the Board before making a consent application or undertaking an environmental appraisal so that advice can be given. If this is not done any application made to the Board could be delayed.

An environmental appraisal to assess the effects upon the environment may be required, especially if bank disturbance is anticipated.

It should be noted that the timing of an environmental survey is vital to ensure valid results. For example, as water voles are very inactive during winter months a survey may inaccurately determine the absence of such species.

The environmental appraisal should identify all likely effects on the environment. The direct and indirect effects on sites and features of interest and species of particular value should be considered.

Specific measures proposed to keep disruption to a minimum and reduce any unwanted effects while the work is being carried out should be included.

Any opportunities for the environmental value of the site to be improved should also be included. This may include creating berms or other water features that preserve storage within catchments. In appropriate locations it may also be possible to plant trees and shrubs that would normally grow at the site (native species) or to create other sustainable places for wildlife to live.

Nature Conservation Sites

If the application site falls within, is next to or is linked to a nature conservation site, it is important to contact the Board as soon as possible to discuss the proposals before any consent application is made.

European Habitats Regulations

Under the European Habitats Regulations, the Board must ensure proposed works do not have a direct or indirect negative effect on any site specified in the regulations, including:

- Sites of Special Scientific Interest (SSSIs)
- Designated Special Areas of Conservation (SACs);
- Special Protection Areas (SPAs);
- Listed RAMSAR sites; and
- Scheduled Ancient Monuments (SAMs)

Under the Habitats Regulations, the Board must consult Natural England if any site designated under the European Habitats Regulations could be affected by the proposed works. If this is likely the Board strongly recommend the advice of Natural England is sought well in advance of any consent application being made to the Board.

SECTION 9 - DECLARATION

This section must be fully completed and signed.

If you are applying as a limited company, a company secretary or a director must sign the declaration.

If you are applying as a company which has trustees, all trustees must sign the declaration.
