BLACK SLUICE INTERNAL DRAINAGE BOARD

I M Warsap Chief Executive Station Road, Swineshead Boston, Lincs, PE20 3PW

Tel: 01205 821440 Fax: 01205 820671

General Email: mailbox@blacksluiceidb.gov.uk

Our Ref: IMW/DPW/B10_1

Website: www.blacksluiceidb.gov.uk

Date: 20th April 2016

To the Chairman and Members of the Audit & Risk Committee

Notice is hereby given that a Meeting of the Audit & Risk Committee will be held at the Offices of the Board on **Wednesday**, **27**th **April 2016 at 2pm** at which your attendance is requested.

Chief Executive

AGENDA

- 1. Apologies for absence.
- 2. To receive and if correct sign the Minutes of the Audit & Risk Committee Meeting held on the 22nd September 2015 (pages 1 5).
- 3. Matters arising.
- 4. To receive the Internal Audit report 2015/16 (pages 6 11).
 - (a) Additional Committee Consultation with Internal Auditor, requested by Internal Auditor
- 5. To review the Draft Audit & Risk Committee Terms of Reference (page 12 & 13).
- 6. To review the following Board policies:

(a)	Risk Management Strategy	(pages 14 – 37)
(b)	Financial Regulations	(pages 38 – 42)
(c)	Procurement Policy	(pages 43 – 46)
(d)	9 metre Bye Law	(pages 47 - 51)
(e)	Publication Scheme	(pages 52 - 55)
(f)	Data Protection	(pages 56 – 58)

- 7. To review the Board's Management Accounts (pages 59 -74))
- 8. To discuss the Practitioners Guide Governance & Accountability for Smaller Authorities
- 9. To receive the Risk Register (page 75)
- 10. To review the Board's Catalogue of Policies (page 76)
- 11. Any other business.

BLACK SLUICE INTERNAL DRAINAGE BOARD

MINUTES

of the proceedings of a meeting of the Audit & Risk Committee

held at the offices of the Board on 22nd September 2015 at 10:30am

Members

Chairman - * Cllr M Brookes

* Mr W Ash

* Mr V A Barker

Mr J G Fowler

* Mr R Leggott

* Cllr B Russell

* Member Present

In attendance:

Mr I Warsap (Chief Executive)
Mr D Withnall (Finance Manager)
Mr D Gowing (Internal Auditor)

The Chairman welcomed Mr D Gowing to the meeting.

802 APOLOGIES FOR ABSENCE

Apologies were received from Mr J G Fowler.

803 MINUTES OF THE AUDIT & RISK COMMITTEE MEETING

Minutes of the last meeting held on the 10th April 2015, copies of which had been circulated, were considered and it was agreed that they should be signed as a true record with the following amendment;

Minute No 728

Paragraph 2, first line – The Chief Executive informed the Committee the Operations Manager, had stated that Copes recommended this policy remain the same and an additional policy be created, a "Near Miss Policy" to identify any trends.

804 MATTERS ARISING

(a) Risk Management Strategy - Minute No 724

Mr V Barker asked if the BSIDB Staff had been trained to operate the Environment Agency (EA) Black Sluice Pumps.

The Chief Executive stated that he has again approached the EA with the offer to cover 50% of the costs to train two members of the BSIDB staff to work alongside the EA staff in operating the Black Sluice Pumping Station. Unfortunately they have not taken up the offer.

(b) Near Miss Reporting Policy - Minute No 728

The Finance Manager referred to the Committees discussions at the last meeting that a new separate policy be put in place to identify trends in "Near Miss" situations which can be identified and resolved.

Mr R Leggott asked if the workforce are made aware of the necessity to complete reports and understand the Boards policies. In response the Chief Executive stated that all Boards policies are included in the Induction of new staff. All Staff attend training days twice yearly in which all updated polices are discussed and the requirement to complete reports.

The Committee RESOLVED to recommend that the Near Miss Reporting policy should be approved at the next Board meeting.

(c) Cyber Security - Minute No 731

The Finance Manager stated that information on the rating system is now encrypted.

An external hard drive network attached storage system (NAS) is due to be fitted for the backup data to be stored offsite. Data is sent to the NAS to make it more secure on an encrypted external connection. This will mean that there will no longer be a need to transport backup tapes.

Mr V Barker asked if in a worst case scenario how access would be obtained to the backup files. The Finance Manager answered that the Chief Executive and the Boards IT provider have the relevant passwords.

805 TO RECEIVE A REPORT ON INSURANCE RENEWAL - Agenda Item 4

It was agreed and thereby RESOLVED to exclude the public from the next part of the meeting due to the confidential nature of the business to be transacted, in accordance with section 2 of the Public Bodies (Admission to Meetings) Act 1960.

806 TO RECEIVE THE ANNUAL RETURN INCLUDING EXTERNAL AUDITORS OPINION - Agenda Item 5

The Finance Manager presented the completed Annual Return which had been approved at the Executive Committee Meeting held on the 15th June 2015. The External Auditors Grant Thornton have issued a clean report with no recommendations.

The Chairman stated that this is excellent work and a great achievement for the Board.

807 TO RECEIVE INTERNAL AUDIT REPORT FOR 2014/15 - Agenda Item 6(a)

Mr D Gowing presented to the Committee the Internal Auditors Audit Report with a 'substantial assurance' for the third year. Mr D Gowings' final conclusion was that he is very happy with all the controls and having proved that the system worked after a cyber attack with files backed up and systems up and running very quickly. He had no management recommendations and stated that the Black Sluice IDB is the only Board with Substantial Assurance.

The Chairman congratulated everyone involved in all the good work which has gone into attaining this level of assurance.

808 TO RECEIVE AUDIT STRATEGY AND PLAN FOR 2015/16 - Agenda Item 6(b)

Mr Gowing stated that the strategy is the same as last year, with the allocation enough to cover the work required to audit best practice.

This year the areas he will be concentrating on are;

- (i) Rating security and data security backup.
- (ii) Grants

The Committee agreed to meet with the Internal Auditor without the management present. The Chief Executive and Finance Manager left the meeting at this point.

The Chairman minuted that matters had been discussed with the Internal Auditor to the satisfaction of the Committee members.

The Chief Executive and Finance Manager returned to the meeting.

809 TO REVIEW THE EMPLOYEES CODE OF CONDUCT - Agenda Item 7(a)

The Finance Manager presented the updated Employees Code of Conduct Policy.

The Committee RESOLVED to recommend that the Employees Code of Conduct Policy should be approved at the next Board meeting.

810 TO RECEIVE FRAUD AND CORRUPTION POLICY - Agenda Item 7(b)

The Finance Manager presented the Fraud and Corruption Policy - highlighted in red are recommended amendments.

A question was asked regarding a corruption scenario of change of BACS details on company headed paper, the Finance Manager stated that if the Board receives notification of change of BACS details then the company would be contacted using previously obtained details, to confirm this before any changes are made if we were at all suspicious.

The Committee RESOLVED to recommend that the Fraud and Corruption Policy should be approved at the next Board Meeting.

811 TO RECEIVE MEMBERS CODE OF CONDUCT POLICY - Agenda Item 7(c)

The Finance Manager presented the amendments to the Members Code of Conduct Policy the Committee made the following amendment;

Note 4

1a(i) & (ii) there should be a gap between anybody it should be any body 2d - the same as above

The Committee RESOLVED with the above amendment to recommend that the policy be approved at the next Board Meeting.

812 TO RECEIVE THE WHISTLE BLOWING CONFIDENTIAL REPORTING CODE - Agenda Item 7(d)

The Finance Manager stated that this policy has been reviewed and no amendments were recommended.

The Committee RESOLVED to recommend that the Whistle Blowing Confidential Report Code should be approved at the next Board Meeting.

813 TO RECEIVE THE OFFICERS CAR LOAN POLICY - Agenda Item 7(e)

The Finance Manager stated that this policy has been reviewed and updated amendments were recommended.

The Committee RESOLVED to recommend that the Officers Car Loan Policy be approved at the next Board Meeting.

814 TO REVIEW THE BOARD'S CATALOGUE OF POLICIES - Agenda Item 8

The Finance Manager recommended that the Financial Regulations and Procurement Policy be moved forward for review in April 2016. The External Auditor last year had reported that these polices be reviewed annually. The Committee discussed whether it would be a worthwhile task to review yearly or 3 yearly.

The Chairman asked Mr D Gowing what would be his view and he stated that 3 yearly would be a comfortable timescale, obviously if there were changes in law or for any other reason these policies could be reviewed at the next available meeting.

The Committee then agreed that the 9 metre Bye Law, Publication Scheme and Data Protection Policies could be moved forward to the April 2016 meeting. All AGREED.

815 TO REVIEW THE RISK REGISTER - Agenda Item 9

The Committee reviewed the Risk Register.

The Committee discussed the risk regarding item ref: 8.5 - Risk of Cyber Attack. The Finance Manager stated that any risk score 4 or above is reviewed.

The Committee reviewed this item at the previous Audit & Risk meeting on the 10th April 2015 and requested a quotation for an insurance policy to cover the risk which was quoted at over £3.5k and therefore was rejected by the Executive Committee. The Finance Manager displayed the risk matrix on screen.

The Committee agreed that Cyber Attack would always be a risk and therefore should be reviewed. They agreed to recommend that the potential impact be MEDIUM reducing the Risk Level from 6 to 4.

8.5 Risk of Cyber Attack

Consequence: All computers and information inaccessible

Risk of Data Protection Breach

Security of Information (Keylogger)

How risk is managed:

Proactive IT Maintenance Contract with external

consultants

4 hour response for server or Network failure Staff with limited training and remote support

Further Work

Staff Training

Unified Threat Management system installed and

subscription maintained

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
HIGH	MEDIUM	6	Continue above activities

The Committee recommended the above amendment be included in the Risk Management Strategy Policy and be approved at the next Board Meeting.

There being no further business the meeting ended at 12:15.

GOWING INTERNAL AUDIT SERVICES LTD

ANNUAL INTERNAL AUDIT REPORT

Black Sluice Internal Drainage Board April 2016

INTERNAL AUDIT REPORT

1 EXECUTIVE SUMMARY

- 1.1 I have completed the 2015/16 internal audit of the Black Sluice Internal Drainage Board in accordance with the Public Sector Internal Audit Standards and with regard to the ADA Practitioners guide.
- 1.2 The statutory basis for internal audit in local authorities in England (which includes Drainage boards) is a specific requirement in the Accounts and Audit regulations which requires that the organisation must maintain an adequate and effective system of internal audit of its accounting records and of its system of internal control.
- 1.3 The internal audit service is an assurance function that provides an independent and objective opinion to the organisation on the control environment by evaluating its effectiveness in achieving the organisation's objectives. It objectively examines, evaluates and reports on the adequacy of the control environment as a contribution to the proper economic, efficient and effective use of resources.
- 1.4 This audit included an implementation review of previous audit recommendations, review of any system changes, sample testing of 2015/16 transactions and provision of best practice advice gained through my audit of other IDBs. An audit of the Bourne Fen Farm Trust Fund has also been completed.

1.5 The main findings were:-

- > all previously agreed recommendations have been implemented
- > well maintained and accurate records and transactions
- ➤ in accordance with the code of conduct and to demonstrate good governance Board members are required to complete a registry of interests form and these are now fully up-to-date.
- > IT back-up has been reviewed and improved and will be further enhanced during the year
- ➤ the Bourne Fen Farm Trust Fund recorded a surplus of £1,078 for the year ended 31 March 2015 with reserves of £231,029. The entries in the revenue account and balance sheet provided were supported by appropriate evidence.
- there is a governance concern in respect of reports and if this continues the overall assurance level could reduce. There has been an internal review of staff pay by the Executive in each of the last two years but this is undertaken and reported by the Chief Executive and includes his own position, there is no independent check. For good governance the Chief Executive (and Finance Manager) withdraw from the meeting when this is discussed but there is no record in the Chief Executive's report or on file of his interest. Once discussed the meeting minute only records the decision. In the last two years the decisions have been contrary to the

recommendations but no justification or reasoning for this is recorded which is particularly important when one pay increase is agreed but others are rejected. A similar issue arose when the Chief Executive presented a report to the Executive on notice periods. The report quoted from statements made at the Audit and Risk Committee but these were not fully accurate although the recommendation was rejected

A detailed control test programme and results is available upon request.

- 1.6 Recommendations have been proposed, discussed and agreed with the Chairman, Chief Executive and Finance Manager. A management action plan is in Section 3.
- **1.7** An interim audit will be undertaken to ensure continued implementation of good controls.
- 1.8 It is my opinion that, in respect of the areas covered by this report I am pleased to provide **substantial assurance** on the system of controls.
- 1.9 I would like to place on record my thanks for the co-operation and assistance given by all staff during this audit.

David Gowing Gowing Internal Audit Services Ltd. May 2016

EVALUATION CRITERIA

Substantial Assurance	There is a sound system of control designed to achieve the system objectives and the controls are being consistently applied.
Adequate Assurance	While there is a basically sound system, there are weaknesses that put a minority of the system objectives at risk and/or there is evidence that the level of non-compliance with some of the controls may put a minority of the system objectives at risk.
Limited Assurance	Weaknesses in the system of controls are such as to put most or all of the system objectives at risk and/or the level of non-compliance puts most or all of the system objectives at risk.
No Assurance	Control is poor, leaving the system open to significant error or abuse and/or significant non-compliance with basic controls.

2 FINDINGS

- 2.1 The annual return for boards with annual income or expenditure under £6.5million requires internal audit to provide certification on the following ten key control objectives. Any comment or issue on an objective is noted below otherwise the objective can be considered to be fully met:
 - a) Appropriate books of account have been properly kept throughout the year.
 - b) Financial Regulations have been met, payments were supported by invoices, expenditure was approved and VAT was appropriately accounted for.
 - c) The Board assessed the significant risks to achieving its objectives and reviewed the adequacy of arrangements to manage these.
 - d) The annual rating requirement resulted from an adequate budgetary process; progress against the budget was regularly monitored; and reserves were appropriate.
 - e) Expected income was fully received, based on correct prices, properly recorded and promptly banked; and VAT was appropriately accounted for.
 - f) Petty cash payments were properly supported by receipts, expenditure was approved and VAT appropriately accounted for.
 - g) Salaries to employees and allowances to Board members were paid in accordance with Board approvals and PAYE and NI requirements were properly applied.
 - h) Asset and investment registers were complete and accurate and properly maintained.
 - i) Periodic and year-end bank reconciliations were properly carried out.
 - j) Accounting statements prepared during the year were prepared on the correct accounting basis (receipts and payments /income and expenditure), agreed to the cash book, were supported by an adequate audit trail from underlying records, and where appropriate debtors and creditors were properly recorded.

3 MANAGEMENT ACTION PLAN

This action plan has been fully discussed and agreed with management.

The priority is based on the following;-

Critical

A control failure that is critical to the organisation's aims and objectives.

This will require immediate action by management.

High

A significant control weakness which is a significant risk to the service or organisation and is likely to lead to material loss or significant public criticism. This will require immediate action by management.

Medium

A control that undermines the effectiveness of internal control and may lead to some loss or some public criticism but does not represent a significant risk to the organisation. This will require prompt action by management.

30

This might be important to the service but does not represent a significant risk for the service or organisation. This will require action by management but not necessarily immediate.

Recommendation	Priority	Management Comments	Responsibility for implementation and date
The Audit and Risk Committee to review and recommend to the Executive / Board how reports with quotes from other staff, members or external persons be approved.	エ	The Chairman to arrange for the minute to be recorded if the officers have left the meeting. Matters to be discussed with the Chairman prior to the management being involved. Any quoted person should confirm any minute or report that they are quoted in before being published.	5
The Board to consider an independent senior staff pay review rather than the current system.	Ι	Consider if we could work in partnership with Boston Borough Council to utilise their independent person paying them expenses to attend an annual Executive meeting.	Chairman, immediately
The reasoning for acceptance or rejection of report recommendations to be included in meeting minutes.	I	To ensure that in conjunction with the independent person the minutes are concise and accurate.	Chairman, immediately

BLACK SLUICE INTERNAL DRAINAGE BOARD

AUDIT & RISK COMMITTEE - TERMS OF REFERENCE

1. **GENERAL**

The Black Sluice IDB shall have an Audit & Risk Committee.

The Committee shall have seven members who will be appointed by the Board.

The Membership shall include:

- Two elected member from Northern Works Committee.
- Two elected member from Southern Works Committee.
- Two appointed Members
- · One additional Member.

The Chairman shall be appointed by the Board at the annual meeting.

2. MEETINGS OF THE COMMITTEE

The Committee shall meet at least once each year and a quorum shall be three members. No one other than the Committee members shall be entitled to attend Committee Meetings, but any other persons shall attend meetings if invited by the Committee.

The external auditors may request a meeting if they consider that one is necessary.

3. POWERS OF THE COMMITTEE

The Committee is authorised:

- To investigate any activity within its responsibilities;
- To seek any information that it requires from any Officer or employee of the Board and all employees are directed to cooperate with any request made by the Committee;
- To obtain outside legal or independent professional advice, and secure the attendance of outsiders with relevant experience and expertise if it consider this necessary.

4. RESPONSIBILITIES OF THE COMMITTEE

The responsibilities of the Committee shall be:

Financial Reporting

- (a) To review, and challenge where necessary, the actions and judgements of Officers in relation to the Boards financial statements and related formal statements.
- (b) To review a financial report as part of the agenda for one meeting and then the management accounts for the second meeting
- (c) To consider other relevant topics, as proposed by the Board.

Internal Control and Risk Management

- (d) To review the arrangements for the Boards employees to raise concerns, in confidence, about possible wrong doings in financial reporting or other matters;
- (e) To keep under review the effectiveness of the Board's internal controls and risk management systems;
- (f) To review and approve the statements to be included in the Annual Report concerning internal controls and risk management.

Internal Audit

- (g) To review Internal audit programme of works and ensure effective liaison with external auditors.
- (h) The Internal Auditor attends one meeting annually that the Committee discuss their remit without the management present.

External Audit

- (i) To oversee the relationship with the external auditors;
- (j) To review the findings of the audit including the management letter and managements response to the auditors findings and recommendations

Reporting

Minutes of meetings of the Committee shall be presented to the next meeting of the Board.

The Committee shall review its terms of reference at least every 5 years and its own effectiveness and recommend any necessary changes to the Board.

To be reviewed by the Audit & Risk Committee

- D Risk Register

Risk Management Strategy

1. Purpose, Aims and Objectives

- 1.1 The purpose of the Boards Risk Management Strategy is to effectively manage potential opportunities and threats to the Board achieving its objectives. See attached Risk Management Policy Statement, Appendix A.
- 1.2 The Boards Risk Management Strategy has the following aims and objectives;
 - Integration of Risk Management into the culture of the Board
 - Raising awareness of the need for Risk Management by all those connected with the delivery of services (including partners)
 - Enabling the Board to anticipate and respond to changing social, environmental and legislative conditions
 - Minimisation of injury, damage, loss and inconvenience to staff, members of the public, service users, assets etc. arising from or connected with the delivery of the Board services
 - Introduction of a robust framework and procedures for identification, analysis, assessment and management of risk, and the reporting and recording of events, based on best practice
 - Minimisation of the cost of risk
- 1.3 To achieve these aims and objectives, the following strategy is proposed;
 - Establish clear accountabilities, roles and reporting lines for all employees
 - Acquire and develop the necessary skills and expertise
 - Provide for risk assessment in all decision making processes of the Board
 - Develop a resource allocation framework to allocate (target) resources for risk management
 - Develop procedures and guidelines for use across the Board
 - Develop arrangements to measure performance of Risk Management activities against the aims and objectives
 - To make all partners and service providers aware of the Boards' expectations on risk, both generally as set out in its Risk Management Policy and where necessary in particular areas of the Boards' operations.
- 1.4 The Black Sluice Internal Drainage Board has adopted the following definition of Risk:

'Risk is the threat that an event or action will adversely affect the organisation's ability to achieve its objectives and to successfully execute its strategies'.

2. Accountabilities, Roles and Reporting Lines

- 2.1 A framework has been implemented that has addressed the following issues:
 - The different types of risk Strategic and Operational
 - Where it should be managed
 - Roles and accountabilities for all staff.
 - The need to drive the policy throughout the Board
 - Prompt reporting of accidents, losses, changes etc.
- 2.2 In many cases, risk management follows existing service management arrangements.
- 2.3 Strategic risk is best managed by the Board.
- 2.4 The Board's Chief Executive will be responsible for the Boards overall risk management strategy, and will report directly to the Board.
- 2.5 The Board's Chief Executive will be responsible for the Boards overall Health and Safety policy and will report to the Board.
- 2.6 It is envisaged that the development of a risk management strategy will encourage ownership of risk and will allow for easier monitoring and reporting on remedial actions / controls.

3. Skills and Expertise

3.1 Having established roles and responsibilities for risk management, the Board must ensure that it has the skills and expertise necessary. It will achieve this by providing Risk Management Training for Employees and Board Members, where appropriate providing awareness courses that address the individual needs of both the manual workforce and office staff.

Perhaps something we should look in to? Some will be covered by H&S Training but it should perhaps be documented somehow?

- 3.2 Training will focus on best practice in risk management, and awareness will also focus on specific risks in areas such as the following:
 - Partnership working
 - Project management
 - Operation of Board vehicles and equipment
 - Manual labour tasks e.g. Health and Safety issues

4. Embedding Risk Management

Risk management is an important part of the service planning process. This will enable both strategic and operational risk, as well as the accumulation of risks from a number of areas to be properly considered. Over time the Board aims to be able to demonstrate that there is a fully embedded process.

This strategy and the information contained within the appendices provides a framework to be used by all levels of staff and Members in the implementation of risk management as an integral part of good management.

5. Risks and the Decision Making Process

- 5.1 Risk needs to be addressed at the point at which decisions are being taken. Where Members and Officers are asked to make decisions they should be advised of the risks associated with recommendations being made. The training described in the preceding section will enable this to happen.
- 5.2 The Board will need to demonstrate that it took reasonable steps to consider the risks involved in a decision.
- 5.3 There needs to be a balance struck between efficiency of the decision making process and the need to address risk. Risk assessment is seen to be particularly valuable in options appraisal. All significant decision reports to the Board (including new and amended policies and strategies) should include an assessment of risk to demonstrate that risks (both threats and opportunities) have been addressed.

Should we leave this in and start including this formally at the bottom of reports to the Board or re-word it to say it will be considered? Something like the tables in the policy?

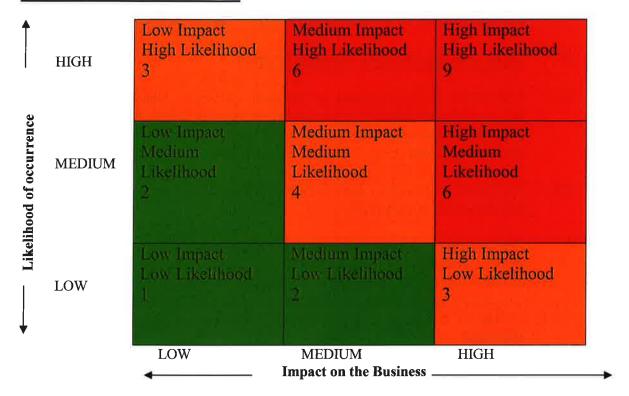

5.4 This process does not guarantee that decisions will always be right but it will demonstrate that the risks have been considered and the evidence will support this.

6. Supporting Innovation and Improvement

- 6.1 Managers have been made aware that there are a number of tools that can be used to help identify potential risks:
 - Workshops.
 - Scenario planning.
 - Analysing past claims and other losses.
 - Analysing past corporate incidents/failures.
 - Health & safety inspections.
 - Induction training.
 - Performance Review & Development interviews.
 - Staff and customer feedback.
- 6.2 Having identified areas of potential risk, they must be analysed by:
 - An assessment of impact.
 - An assessment of likelihood.

This is to be done by recording the results using the risk matrix below:

RISK ASSESSMENT MATRIX

The high, medium and low categories for impact and likelihood are defined as follows:

IMPACT

- *High* will have a catastrophic effect on the operation/service delivery. May result in major financial loss (over £100,000). Major service disruption (+ 5 days) or impact on the public. Death of an individual or several people. Complete failure of project or extreme delay (over 2 months). Many individual personal details compromised/revealed. Adverse publicity in national press.
- Medium will have a noticeable effect on the operation/service delivery. May result in significant financial loss (over £25,000). Will cause a degree of disruption (2 5 days) or impact on the public. Severe injury to an individual or several people. Adverse effect on project/significant slippage. Some individual personal details compromised/revealed. Adverse publicity in local press.
- Low where the consequences will not be severe and any associated losses and or financial implications will be low (up to £10,000). Negligible effect on service delivery (1 day). Minor injury or discomfort to an individual or several people. Isolated individual personal detail compromised/revealed. NB A number of low incidents may have a significant cumulative effect and require attention.

LIKELIHOOD

High	Very likely to happen	Matrix score 3
Medium	Likely to happen infrequently and difficult to predict	Matrix score 2
Low	Most unlikely to happen	Matrix score 1

7. Risk Control

7.1 Using the risk matrix produces a risk rating score that will enable risks to be prioritised using one or more of the "four T's"

Tolerate Score <= 2 Accept the risk

Treat Score 3 to 5 If possible take cost effective in-house actions to reduce the risk.

Transfer Score 6 to 8 Let someone else take the risk (eg by Insurance or passing responsibility for the risk to a contractor).

Terminate Score 9 Agree that the risk is too high and do not proceed with the project or activity.

7.2 Risk assessment and risk matrices provide a powerful and easy to use tool for the identification, assessment and control of business risk. It enables managers to consider the whole range of categories of risk affecting a business activity. The technique can assist in the prioritisation of risks and decisions on allocation of resources. Decisions can then be made concerning the adequacy of existing control measures and the need for further action. It can be directed at the business activity as a whole or on individual departments/sections/functions or indeed projects.

8. Supporting Innovation and Improvement

- 8.1 Risk Management will be incorporated into the business planning process for the Board with a risk assessment of all business aims being undertaken as part of the annual Estimates process.
- 8.2 The Board's internal auditor will have a role in reviewing the effectiveness of control measures that have been put in place to ensure that risk management measures are working.

RISK MANAGEMENT STRATEGY STATEMENT

The Board believes that risk is a feature of all businesses. Some risks will always exist and can never be eliminated: they therefore need to be appropriately managed.

The Board recognises that it has a responsibility to manage hazards and risks and supports a structured and focused approach to managing them by approval each year of a Risk Management Strategy.

In this way the Board will improve its ability to achieve its strategic objectives and enhance the value of services it provides to the community.

The Boards Risk Management objectives are to:

- Embed risk management into the culture and operations of the Board
- Adopt a systematic approach to risk management as an integral part of service planning and performance management
- Manage risk in accordance with best practice
- Anticipate and respond to changing social, environmental and legislative requirements
- Ensure all employees have clear responsibility for both the ownership and cost of risk and the tools to effectively reduce / control it

These objectives will be achieved by:

- Establishing clear roles, responsibilities and reporting lines within the organisation for risk management
- Incorporating risk management in the Board's decision making and operational management processes
- Reinforcing the importance of effective risk management through training
- Incorporating risk management considerations into Service / Business Planning, Project Management, Partnerships & Procurement Processes
- Monitoring risk management arrangements on a regular basis

The benefits of Risk Management include:

- Safer environment for all
- Improved public relations and reputation for the organisation
- Improved efficiency within the organisation
- Protect employees and others from harm
- Reduction in probability / size of uninsured or uninsurable losses
- Competitive Insurance Premiums (as insurers recognise the Board as being a "low risk")
- Maximise efficient use of available resources.

RISK MANAGEMENT POLICY DOCUMENT

In all types of undertaking, there is the potential for events and consequences that may either be opportunities for benefit or threats to success. Internal Drainage Boards are no different and risk management is increasingly recognised as being central to their strategic management. It is a process whereby Internal Drainage Boards methodically address the risks associated with what they do and the services which they provide. The focus of good risk management is to identify what can go wrong and take steps to avoid this or successfully manage the consequences.

Risk management is not just about financial management; it is about achieving the objectives of the organisation to deliver high quality public services.

The failure to manage risks effectively can be expensive in terms of litigation and reputation, the ability to achieve desired targets, and, eventually, the level of the drainage rates.

Internal Drainage Boards need to keep under review and, if need be, strengthen their own corporate governance arrangements, thereby improving their stewardship of public funds and providing positive and continuing assurance to ratepayers. The Board already looks at risk as part of their day to day activities but there is now a need to look at, adapt, improve where necessary and document existing processes.

Should the paragraph below be replaced with a paragraph relating to the potential transfer of EA Assets?

The importance of looking afresh at risk comes in the wake of a more demanding society, bold initiatives and more challenge when things go wrong. It also arises because of the significant changes taking place as a result of the Defra IDB Review and a letter received from Richard Benyon MP in 2012, further details can be found in the 2013/14 business plan. Internal Drainage Boards currently face pressures that potentially give rise to a range of new and complex risks and which suggest that risk management is more important now than at any other time.

Members are ultimately responsible for risk management because risks threaten the achievement of policy objectives. As a minimum, the members should, at least once each year:

- a) take steps to identify and update key risks facing the Board;
- b) evaluate the potential consequences to the Board if an event identified as a risk takes place; and
- c) decide upon appropriate measures to avoid, reduce or control the risk or its consequences.

This Risk Management Policy document is designed to be a living document which will be continually updated when new risks are identified or when existing risks change.

The assessment of potential impact will be classified as high, medium or low. At the same time it will assess how likely a risk is to occur and this will enable the Board to decide which risks it should pay most attention to when considering what measures to take to manage the risks.

After identifying and evaluating risks the responsible officer will need to decide upon appropriate measures to take in order to avoid, reduce or control the risks or their consequence.

RISK ANALYSIS

1. TO PROVIDE AND MAINTAIN STANDARDS OF NEEDS BASED SUSTAINABLE FLOOD PROTECTION

1.1 Risk of Being Unable to Prevent Flooding to Property or land

The Board's main objective is to provide satisfactory water level management within the Board's area.

Flooding could occur in the following ways:

- From failure of coastal defences which are maintained by EA
- From EA Watercourses
- From IDB watercourses
- From riparian watercourses
- From sewers maintained by other authorities
- From surface water
- (a) Coastal or Fluvial flooding from failure or overtopping of defences

Consequence:

Land and Properties could be subjected to flooding and IDB

Pumping Stations could be required to deal with Substantial

additional flows

How risk is managed:

Board works with lead local flood authority

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
HIGH	LOW	3	Continue above activities

(b) Flooding from failure of IDB pumping stations or excess rainfall

Consequence:

Land and Properties could be subjected to flooding and IDB

Pumping Stations could be required to deal with Substantial

additional flows

How risk is managed:

Board works with lead local flood authority

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
HIGH	LOW	3	Continue above activities

(c) Flooding from Sewers or riparian watercourses

Consequence: Small areas of land and maybe some properties could be

subjected to flooding

How risk is managed: Board works with lead local flood authority

MEDIUM	LOW	2	Continue above activities
Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action

1.2 Risk of Loss of Electrical Supply

The Board relies on electrical power for all pumping stations. Loss of supply could be encountered for a number of reasons in the future.

Consequence: Pumping stations would fail to operate

Office and Depot would be unable to function

Telemetry system fails to operate

How risk is managed: Dual drive gearboxes installed at pumping stations to enable

pumps to be operated by a tractor

Large pumping stations have generator connections but the Board would have to hire in generators which may be in short

supply

UPS system fitted to telemetry computer and Mainserver

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
HIGH	LOW	3	Continue above activities

1.3 Risk of Pumps failing to operate

Consequence: High water levels and possible flooding

Extra expenditure on pumping station maintenance

How risk is managed: Pumping engineer checks at regular intervals

Refurbishment of plant has been carried out

Continued investment planned for pumping stations over next

Ten years

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action Continue above
HIGH	LOW	3	activities

1.4 Risk of Watercourses being unable to convey water

Consequence: High water levels and possible flooding

Extra expenditure on drain maintenance

How risk is managed: Asset conditions are shown on a database

All watercourses are cleared of weed growth once each year

All watercourses are desilted on a regular basis

Board regularly check and clear out culverts

Further work: Continue to review asset conditions in asset database

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
MEDIUM	LOW	2	Continue above activities

1.5 Risk of Operating machinery to maintain watercourses

The Board operates excavators and tractor mounted machines to remove weed growth and silt from watercourses. There are risks in operating this machinery.

Risk: Hitting overhead electrical services

Hitting underground electrical services

Machines falling into watercourse

Parts of machine hitting people or other vehicles

Consequence: Damage to Third parties

Damage to vehicles

Injury to staff

How risk is managed: Machinery is regularly serviced

Machinery is checked twice each year by a qualified engineer

Health and Safety Policy, reported annually to the Board

Health and Safety Consultant employed

All drivers are suitably trained

All drivers are provided with the required safety equipment

All machinery is insured by the Board

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
MEDIUM	LOW	2	Continue above activities

1.6 Risk of Claims from Third Parties for damage to property or injury

Risk: The Board could cause damage to property or injury due to

their actions

Consequence: Loss of income

Extra work for staff

How risk is managed: The Board has adequate insurance

The Board train staff to undertake works safely

Risk assessments are carried out

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
MEDIUM	LOW	2	Continue above activities

Should the likelihood be higher?

High Very likely to happen

Likely to happen infrequently and difficult to predict

Matrix score 3 Matrix score 2 Matrix score 1

Medium Low

Most unlikely to happen

1.7 Risk of Loss of Senior Staff

Consequence: Inability to operate efficiently

How risk is managed: Hire in temporary staff from Agencies or other local Drainage

Boards

Formalised arrangements to share staff from other drainage

boards

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
MEDIUM	LOW	2	Continue above activities

1.8 Insufficient Finance to Carry Out Works

Consequence: Watercourses not maintained in satisfactory condition

Pumping Stations more at risk of failure

Increased risk of poor drainage and flooding

How risk is managed: Ten year budget to ensure adequate funding

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
MEDIUM	LOW	2	Continue above activities

1.9 Reduction in Staff Performance

Consequence:

Reduced standards of maintenance

How risk is managed:

Appraisal system not sure that a formal Appraisal system is beneficial and ongoing appraisal is much better utilising the capability procedure if there are concerns that require formal

intervention?)

Management systems

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
MEDIUM	LOW	2	Continue above activities

1.10 Insufficient Staff Resources

Consequence:

Reduced standards of maintenance

Reduced value for money

How risk is managed:

Review by senior management

Reports to Executive Committee

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
MEDIUM	LOW	2	Continue above activities

2. TO CONSERVE AND ENHANCE THE ENVIRONMENT WHEREVER PRACTICAL AND POSSIBLE TO ENSURE THERE IS NO NET LOSS OF BIODIVERSITY

2.1 Risk of Prosecution for not Adhering to Environmental Legislation

The Board have responsibilities to promote nature conservation and the environment

Consequence:

Prosecution for damage to habitat

Injury or death of fish, birds or mammals

How risk is managed:

Board employs an environmental consultant for reports and

advice

Workforce are trained in environmental matters

Working within the restraints of the Board's Biodiversity

Action Plan

MEDIUM	LOW	2	Continue above activities
Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action

2.2 Non Delivery of Objectives

Consequence: Biodiversity Action Plan not complied with

How risk is managed: Projects included in capital plan

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
LOW	MEDIUM	2	Continue above activities

3. TO PROVIDE A 24 HOUR/365 DAY EMERGENCY RESPONSE FOR THE COMMUNITY

3.1 Emergency Plan Inadequate or not up to date

Consequence: Difficulties in emergency situation

How risk is managed: Regular review of plan

LOW	LOW	1	Continue regular reviews
Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action

3.2 <u>Insufficient Resources</u>

Consequence: Inability to provide adequate response

How risk is managed: Shared resources with neighbouring Boards

Use local farmer's resources

Review sources available

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
MEDIUM	LOW	2	Continue to review resources

3.3 Risk of Critical Incident Loss of Office

Consequence: Risk of an incident preventing the use of anything at the

offices

How risk is managed: Insurance for Additional Cost of Working

Look into establishing alternative arrangements

Possibility of Witham Fourth Offices

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
HIGH	LOW	3	Continue above activities

4. TO PROVIDE A SAFE AND FULFILLING WORKING ENVIRONMENT FOR STAFF

4.1 Risk of Injury to Staff and Subsequent Claims and Losses

Consequence: Injury to staff

Claims for losses

Senior staff liable under Corporate manslaughter Legislation

How risk is managed: Health and Safety Policy, reported annually to the Board

Health and Safety Consultant employed

Staff are trained for the duties that they are required to

perform

Risk assessments are carried out for all activities

The Board has suitable insurance cover against all risks

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
MEDIUM	LOW	2	Continue above activities

4.2 Risk of not complying with Health & Safety Legislation

If Health & Safety legislation is not complied with there is a risk of work being stopped and officers being prosecuted.

Consequence: Fines and serious delays in work programme

How risk is managed: A health and safety consultant is employed to advise on

policy, monitor legislation and to check Health & Safety risk

assessments

Board Health & Safety policy is developed under their

guidance

Regular training of all staff

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
HIGH	LOW	3	Continue above activities

5. TO MAINTAIN FINANCIAL RECORDS THAT ARE CORRECT AND COMPLY WITH ALL RECOMMENDED ACCOUNTING PRACTICE

5.1 Risk of Loss of Cash

Very little cash collected at office

Consequence:

Loss of income

How risk is managed:

Money placed in safe and banked as soon as possible

The Board has adequate insurance A maximum of £500 petty cash is held

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
LOW	LOW	1	Continue above activities

5.2 Risk of Loss of Money invested in Building Societies & Banks

Consequence:

Loss of income

How risk is managed:

Money is placed with known Building Societies and banks on

the FCA Register

A maximum of £300,000 is invested in each organisation as

per the Investment Policy

The Executive Committee of the Board reviews the

investments on a regular basis

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
MEDIUM	LOW	2	Continue above activities

5.3 Risk of Fraud by Senior Officers

Consequence:

Loss of money

How risk is managed:

Two Officers always have to sign each mandate for a

transaction

All transactions are approved by the Board

The Board has adequate insurance

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
LOW	LOW	1	Continue above activities

5.4 Risk of Inadequacy of Internal Checks

Consequence: Risk of incorrect payments being made

How risk is managed: All items resulting in payments being made by the Board are

checked before being processed

All Payments made through the Board's Bank Accounts are authorised by two authorised signatories as per the Financial

Regulations

MEDIUM	LOW	2	Continue above activities
Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action

6. TO ENSURE THAT ALL ACTIONS TAKEN BY THE BOARD COMPLY WITH ALL CURRENT UK AND EU LEGISLATION

6.1 Risks to Board Members

There are 21 Board Members who make decisions on the operation of the Board

Risk: Board Members make decisions that involve the Board in

extra expense

Consequence: Liability of Board Members

How risk is managed: The Board has adequate insurance

Qualified and experienced staff advise the Board

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
LOW	LOW	1	Continue above activities

6.2 Risk of not complying with all Employment Regulations and Laws

There is a risk that the Board may not comply with all regulations and laws.

Consequence: Claims against the Board

How risk is managed: Insurance

Advice from consultants and solicitors and the industry

Finance Manager has regular training in employment law

MEDIUM	LOW	2	Continue above activities
Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action

7. A COST EFFICIENT IDB THAT PROVIDES VALUE FOR MONEY SERVICE

7.1 Risk of Collecting insufficient Income to Fund Expenditure

Consequence: Inability to pay staff and creditors

Inability to maintain drains and pumping stations in a

satisfactory condition

How risk is managed: Monthly finance reports sent to Members of Executive

Committee

Reports to Board Meetings

Cash flow forecasting by Finance Manager

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
LOW	Low	1	Continue above activities

7.2 IDB abolished or taken over

Consequence: Loss of direction from local members

How risk is managed: Association of Drainage Authorities lobbies on behalf of

IDB's

Regular dialogue with local MP's

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
LOW	LOW	1	Continue above activities

8. INFORMATION TECHNOLOGY & COMMUNICATIONS

8.1 Risk of Loss of Telemetry

Consequence: If the telemetry fails then it will be more difficult to manage

the pumping stations

How risk is managed: Continual review of hardware and software

Back up computers

Pump Engineer's experience

Workmen already assigned to pumping stations can be sent to

check on conditions

High Capacity UPS (Battery Backup) in place in case of

power cut

Further Work: Continue to maintain trained staff to monitor telemetry

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
MEDIUM	LOW	2	Continue above activities

8.2 Risk of Loss of Telephone Communications

Consequence: Inability to communicate decisions

How risk is managed: All staff have mobile telephones

4 Digital & 3 Analog lines on site

UPS (Battery Backup) on Communications Cabinet

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
LOW	LOW	1	Continue above activities

8.3 Risk of Loss of Internet Connections

Consequence: Unable to remotely connect to office and Telemetry resulting

in Employee having to be on site in an event

Unable to make bank payments

Unable to access information on internet

How risk is managed: Two Fibre Broadband internet lines into office

Mobile Wifi Broadband

Potential Impact of	Potential likelihood	Risk Level	Action
Risk	of Risk		

MEDIUM LOW	2	Continue above activities
------------	---	---------------------------

8.4 Risk of Network Failure

Consequence: All computers and information inaccessible

How risk is managed: Proactive IT Maintenance Contract with external consultants

4 hour response for server or Network failure Staff with limited training and remote support

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
HIGH	LOW	3	Continue above activities

8.5 Risk of Cyber Attack

Consequence: All computers and information inaccessible

Risk of Data Protection Breach

Security of Information (Keylogger)

How risk is managed: Proactive IT Maintenance Contract with external consultants

4 hour response for server or Network failure

Staff with limited training and remote support

Further Work Staff Training

Unified Threat Management system installed and subscription

maintained

All information taken off site digitally is encrypted and

password protected

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
HIGH	MEDIUM	6	Continue above activities

Can the likelihood be reduced?

HighVery likely to happenMatrix score 3MediumLikely to happen infrequently and difficult to predictMatrix score 2LowMost unlikely to happenMatrix score 1

8.6 Risk of Network Security Breech

Consequence: Unauthorised access to the Network and information stored on

the network

How risk is managed: Unified Threat Management installed and subscription

maintained

Review of Network Security by IT consultants carried out

Risk	of Risk	2	Continue above
MEDIUM	LOW	2	activities

8.7 Risk of Virus being introduced to Network

Consequence: Malicious damage to hardware and information by various

types of virus

How risk is managed: Sophos Antivirus installed on all servers and desktop

computers and managed centrally

Hard Firewall installed to prevent unauthorised person

introducing virus

Emails filtered off site by Message Defence and by UPS to

reduce likelihood of malicious attachments

Potential Impact of Risk	· ·		Action	
MEDIUM	LOW	2	Continue above activities	

8.8 Risk of Loss of Accounting Records

All of the Board's records are retained on the main server in the communications room

Consequence: Inability to pay staff

Inability to pay creditors

Difficulty in finalising accounts

How risk is managed: Records backed up each day

Insurance for loss of business

Computer systems are regularly reviewed by trained staff and

external IT consultants

Volume Shadow software copies back up every six hours

A system recovery drive has been installed in case of

catastrophic failure of server or the network

Encrypted Back up tape is taken off site out of office hours

MEDIUM	LOW	2	Continue above activities
Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action

8.9 Risk of Loss of Rating Records

All of the Board's records are retained on the main server in the communications room

Consequence: Inability to check who has paid rates

Loss of income

Loss of records of occupiers of land

How risk is managed: Records backed up each day

Insurance for loss of business

Volume Shadow software copies back up every six hours

Computer systems are regularly reviewed by trained staff and

by external IT consultants

Encrypted Back up tape is taken off site out of office hours

Potential Impact of Risk	Potential likelihood of Risk	Risk Level	Action
MEDIUM	LOW	2	Continue above activities

BLACK SLUICE INTERNAL DRAINAGE BOARD

POLICY NO 03 FINANCIAL REGULATIONS POLICY

Review Dates:

Original Issue	16 th January 2013
Reviewed	27 th April 2016
Board Approved	

1.0 Introduction

- 1.1 The Accounts and Audit Regulations 2011 and the financial provisions of the Land Drainage Act 1991, place a responsibility on Drainage Boards to ensure that the financial management of Boards is adequate and effective.
- 1.2 Financial Regulations set out the framework of the rules for the proper financial administration of the Board and the responsibility of those charged with carrying out duties with financial implications.

2.0 Responsibility for Financial Control

- 2.1 The Finance Manager shall be responsible to the Board for overall financial control of the Board's financial affairs and the continuous provision of financial management information.
- 2.2 The Finance Manager shall be responsible for maintaining the integrity of the accounting, financial administration and financial control systems of the Board.

3.0 Annual Estimates and Budgets

- 3.1 The Chief Executive and the Finance Manager shall, each financial year, prepare estimates of income and expenditure for the ensuing financial year. Such estimates will be presented to the Executive Committee in January to allow recommendations to be put to the Board before 15th February on the level of the penny rate and council special levies.
- 3.2 The Chief Executive and the Finance Manager shall also each year produce a ten year projection to estimate levels of balances, so that the penny rate can be set at appropriate levels.
- 3.3 The Board meeting in February will set and seal the Rate for the ensuing financial year.

3.4 The Board shall be kept informed by the Finance Manager of the overall financial position of the Boards finances through monthly management accounts, quarterly forecasts and other reports as necessary.

Payments of Accounts / Orders

- 4.1 All requests for goods and services shall be issued on official order forms authorised as set down in the procurement policy.
- 4.2 All invoices, claims and accounts shall be authorised by the Finance Manager before payment ensuring that the payment is legal and within the power of the drainage board.
- 4.3 Payments will be made twice each month processed by the second and last Friday in each period.
- 4.4 The Finance Manager shall prepare a monthly schedule of payments that have been made.
- 4.5 All Schedules of payments are to be reported to the next available Board meeting.

5.0 Income

- 5.1 Procedures for the collection of all income due to the Board shall be under the control of the Finance Manager.
- 5.2 Payment received on behalf of the Board by cheque will be paid into the Board's bank account on a regular basis and at least within a week. Payments received in cash may be transferred to the petty cash float if required otherwise paid into the Board's bank account without delay. Payments may also be taken by debit or credit card, in person, by phone or on the Board's website or paid directly into the Board's bank account by the Debtor.
- 5.3 All payments received by which ever method shall be recorded in the collection and deposit book.
- 5.4 The Finance Manager shall have responsibility to ensure that all monies received are correctly recorded in the Board's accounting records and the correct amount of VAT is added to income accounts where applicable.
- 5.5 The Finance Manager shall keep the Board regularly informed on the level of drainage rates collected.
- 5.6 An official receipt showing date of receipt, amount received, type of remittance and reason for payment will be issued for all cash payments and for cheque payments on request.

5.7 Keys to the safe and cash boxes shall only be available to designated officers. Any lost keys must be immediately reported to the Chief Executive and Finance Manager.

6.0 Insurance

- 6.1 The Finance Manager, in consultation with responsible Officers initiates all appropriate insurance cover and negotiates all claims in consultation with relevant Officers.
- 6.2 All Policies and covers are to be reviewed on an annual basis.
- 6.3 The Finance Manager shall inform the Insurer in a manner and at intervals requested by the Insurer, of all asset changes and cover required.
- 6.4 Officers shall promptly notify the Finance Manager of any loss, liability or damage or any event likely to lead to a claim on any Board policy.

7.0 Stock and Assets

- 7.1 The Finance Manager shall receive a weekly stock list from the Operations Manager detailing issues, receipts and balances of stock items.
- 7.2 The Finance Manager will arrange a physical stock take at least twice a year with one coinciding with the financial year end on the 31st March.
- 7.3 The Operations Manager shall ensure proper and safe custody of all stock.
- 7.4 The Finance Manager shall keep an asset register. This shall record all assets above £5,000 in value. The Finance Manager will carry out at least an annual physical check of assets.

8.0 Payment to Employees

- 8.1 The Finance Manager shall keep a record of all employees to show details of the appointment, grade and payments in respect of each employee of the Board.
- 8.2 The Finance Manager shall be responsible for the payment of all, salaries, wages and other emoluments to all employees.

- 8.3 The Finance Manager shall be responsible for keeping and maintaining all records for the proper administration of PAYE, NI and Superannuation.
- 8.4 All authorised officers shall notify the Chief Executive and Finance Manager immediately of all matters affecting payments including resignations, suspensions, absences from duty and changes in remuneration.

9.0 <u>Treasury Management / Banking Arrangements</u>

- 9.1 The Finance Manager shall include in the monthly management accounts details on all investments which will be distributed to the Executive Committee.
- 9.2 The Board has a limit of funds that may be deposited, in a fixed term investment, with any institution which is £300,000.
- 9.3 The Board only places deposits with financial institutions which are regulated by the Financial Conduct Authority.
- 9.4 Bank transactions and instructions must be authorised by two approved officers.
- 9.5 In relation to 9.4 above, the approved officers are: Chief Executive, Finance Manager, Finance Supervisor and Operations Manager.
- 9.6 The Chief Executive and Finance Manager may hold a Business Chargecard, with a monthly limit of £5,000 for payment of expenses and Internet orders. The Operations Manager may hold a business Chargercard, with a monthly limit of £2,500. Statements are to be certified by the Finance Manager every month. Chief Executive to certify the Finance Manager's statement.
- 9.7 Small payments may be made by Petty cash under the control of the Finance Supervisor. All petty cash claims are to be recorded on a voucher supported by a receipt and authorised by the Finance Manager or Chief Executive. The maximum amount of petty cash that may be held is £500. The Finance Manager is to certify the analysis every month.
- 9.8 Bank accounts must be in the name of Black Sluice IDB.

10.0 Audit and Accounts

10.1 The Finance Manager shall arrange for an internal audit of the accounting, financial management and other operations of the Board. This will be undertaken by a suitably qualified and experienced internal

- auditor and be undertaken in accordance with the CIPFA code of audit practice.
- 10.2 The internal auditor shall produce an annual report to the Executive Committee and the Audit and Risk Committee.
- 10.3 Any qualified or adverse Internal or External audit reports or opinions will be reported to the next available Board meeting.
- 10.4 The Annual Financial Statements shall be approved by the Board before the 30th June each year.

11.0 Irregularities / Fraud

11.1 In any case where irregularity is suspected in connection with financial or accounting transactions, it shall be the duty of the Finance Manager to inform the Chief Executive, Chairman of the Board, and the Board's Auditor without delay.

Black Sluice Internal Drainage Board

Policy No: 4 Procurement Policy

Review Dates:

Reviewed	27 th April 2016
Board Approved	
Due for Review	

1. INTRODUCTION

The Board approve an annual budget in February for all expenditure by the Board. Items of expenditure are discussed and approved by the Executive Committee, the Works Committees and the Board.

There has been a culture of the Board approving major items of expenditure which brings with it value for money.

2. THE PROCUREMENT PROCESS

Whatever the cost of an item or service that the Board purchases the following process is followed through to payment of that item:-

- 1 A Board order form must always be completed for any purchase made by the Board, except for purchases made using the internet or for items purchased by the Woldmarsh Group.
- 2 The following people are authorised to be issued with order books:
 - a. Chief Executive
 - b. Finance Manager
 - c. Operations Manager
 - d. Pump Engineer
 - e. Assistant Pump Engineer
 - f. Finance Supervisor
 - g. Operations Supervisor
 - h. Fitter/Pump Engineers Assistant
 - i. Unimog Driver
- 3 The order form should be filled out at the time of order and signed by the person who is organising the order and countersigned as required.
- 4 The management team is the Chief Executive, Finance Manager and Operations Manager.
- 5 The order is given to the supplier with, where possible, the agreed price of the item or service.

- 6 The green copy of the order form is given to the Finance Assistant. If additional quotations for the goods have been obtained then these should be noted on this copy.
- 7 When a delivery note is obtained this should be given to the Finance Assistant.
- 8 When the Finance Assistant receives an invoice for the goods they are to attach the order and the delivery note to this.
- 9 The invoice is approved by the Finance Manager before payment is made.
- 10 A report is made to every Board Meeting of the invoices paid by the Board.

3. BASIS OF PROCUREMENT POLICY

The policy sets out guidelines for procurement for four bands of expenditure:-

- Greater than £10,000
- Between £2,000 and £10,000
- Between £500 and £2,000
- Below £500

The Policy for Delegation of Authority gives the following authorities:

- 1 Executive Committee to approve any item of expenditure up to a value of £25,000.
- 2 The Chief Executive or Finance Manager to approve expenditure up to a value of £10,000 which is included in annual estimates and regular budgeted expenditure (eg electricity) in excess of £10,000.

4. PROCUREMENT POLICY

(a) Items with a value greater than £10,000

These items will typically be:

- Large items of plant
- Machinery and electrical equipment for pumping stations
- Substantial repair contracts
- Large contracts
- Insurance policies
- Large amounts of pipes, steel piles and other materials for stock

These items will be included in the annual budgeted expenditure and through this method the expenditure will be approved by the Board. In most cases three quotations will be obtained or the proposed purchase will be approved by the Board.

In the case of specialised equipment or in an emergency where it is not possible to obtain alternative quotations the Chairman or the Vice Chairman of the Board shall authorise the purchase.

(b) Items between £2,000 and £10,000

These items will typically be:

- Items of new plant
- Large repairs to plant
- Repairs to equipment at pumping stations
- Purchase of pipes, steel sheet piles and other construction equipment for stock.
- Items of office equipment
- Consultancy services
- Contracts for maintenance works
- Monthly payments to electricity companies.

Quotations will be obtained for items of new plant, office equipment, consultancy services and contracts for maintenance works. These will be approved by the Executive Committee before procurement, unless these have been approved within the annual budgets when the Finance Manager or Chief Executive will approve the expenditure.

Repairs of plant and pumping station equipment need to be progressed without delay and will normally be carried out by contractors or suppliers who regularly carry out work for the Board. The Finance Manager or Chief Executive shall approve this expenditure and this will be reported to the Executive Committee as part of the monthly Accounts Analysis sent to members by Email.

Regular purchases of equipment and materials for stock will be approved by the Finance Manager or Chief Executive. The Operations Manager or Operations Supervisor will where possible obtain three quotations and the best value will be chosen.

Some monthly utility payments, particularly electricity bills, will be included in this category. These payments will be approved by the Finance Manager and Chief Executive. Best value for money is achieved by using a broker to negotiate annual, 2 year or 3 year contracts with the electricity supply companies.

(c) Items between £500 and £2,000

These items will typically be:

- Purchase of small items of plant
- Hire of plant and machinery
- Repairs to plant and machinery
- Purchase of spare parts for machinery
- Material for construction materials.
- Computers and office equipment

The Finance Supervisor, Operations Supervisor, Fitter/Pump Engineers Assistant and Unimog Driver shall, where possible obtain three quotations

and obtain the authorisation from a member of the management team before signing an order for this level of procurement.

The Pump Engineer shall after obtaining three quotations, where possible, have the authorisation to sign an order for this level of procurement when associated with pumping station equipment.

(d) Items below £500

These items or services are typically spare parts for machinery, office materials and other similar goods.

If possible, value for money will be achieved by obtaining at least one other quotation or by comparing the price with previous purchases of similar goods or services. It is accepted that small incidental purchases will be purchased from the most appropriate local supplier and this is to be noted on the carbon copies of the order.

5. ITEMS PURCHASED BY CREDIT CARD

Credit cards have been issued to the Chief Executive, Finance Manager and Operations Manager for use in purchasing goods and services for the Board. These items will be authorised by the management team and no one officer should authorise their own expenditure.

These purchases will be subject to the same guidelines as normal purchases.

6. ITEMS PURCHASED BY WOLDMARSH GROUP

The Board has become a member of the Woldmarsh Buying Group which works on behalf of its members to procure goods and services at preferential prices.

If goods or services are required a member of the Management Team will contact Woldmarsh who will procure the items on behalf of the Board. An official Board order form will be completed as above to include the agreed prices and the analysis for the accounts.

As soon as Woldmarsh have completed an order to the suppliers a confirmation of the order is sent to the Operations Manager, Finance Manager and Chief Executive Officer for review and oversight.

Woldmarsh submit an invoice for payment once per month for all of the goods and services purchased for the Board.

7. SUMMARY

The above policy is not exhaustive and is written as a guide to the appropriate level of authorisation for the level of procurement required.

Members of staff should always liaise with members of the management team to ensure that procurement of materials and services give satisfactory value for money.

Staff should look for every opportunity to make bulk purchases with other authorities to achieve additional value for money.

BLACK SLUICE INTERNAL DRAINAGE BOARD

Tel: 01205 361061 Fax: 01205 360657 72 Carlton Road Boston, Lincs, PE21 8PB

9 METRE BYELAW POLICY

1. PURPOSE

This document sets out the policy of the Black Sluice Internal Drainage Board concerning relaxation of its Byelaw No10 permitting obstructions closer than 9.0 metres to the edge of a Board maintained watercourse. The Policy was adopted by the Board on 6th July 2005.

2. INTRODUCTION

The Boards Byelaw No 10 states:

'No person without the previous consent of the Board shall erect any building or structure, whether temporary or permanent, or plant any tree, shrub, willow or other similar growth within 9 metres of the landward toe of the bank where there is an embankment or wall or within 9 metres of the top of the batter where there is no embankment or wall, or where the watercourse is enclosed within 9 metres of the enclosing structure.

This Byelaw only applies to Board maintained watercourses and not to riparian or private watercourses. If in doubt contact the Board at the address below.

3. BLACK SLUICE POLICY

The Board has a policy of discouraging culverting (see Board's "Policy Concerning Culverting"), this in turn has led to an increase in applications to relax Byelaw No 10. The Board recognises that owners wish to maximise the enjoyment of their land, however at the same time, the Board needs to retain its ability to maintain it's watercourses in an efficient and economic manner.

The Board will normally only consider relaxing the Byelaw when the following baseline conditions occur:

- Normal maintenance procedures (mudding and cutting) is available from at least one side of the drain.
- The owner of the opposite bank is not unduly inconvenienced.
- That should improvements or exceptional maintenance be required the obstruction is removed at the applicant's expense.

or

Similar obstructions already exist nearby on the same bank.

The application fee for Byelaw relaxation is £50.

4. REASONS FOR THE POLICY

The policy formalises the baseline conditions above and gives written guidelines for more specific instances. The benefits of the policy are:

- Fairness and uniformity in determining applications
- Applicants can study the guidelines before application
- Powers are delegated giving a more efficient and timely service

However this policy is not intended to cover every eventuality and the Board (in formal meeting) may waive the policy and make a determination on the basis of reasonable fairness to all parties.

5. DELEGATED POWERS

Delegated powers are given to the Chief Executive and the relevant Works Committee Chairmen to determine any Byelaw relaxations that fall within the guidelines given below (except where stated otherwise). In all other cases the power to determine applications has been delegated to the appropriate Works Committee or the Executive Committee, unless a Board meeting is more timely.

6. GUIDELINES

Guidelines are given below on the following types of applications:

- 1) Buildings and Permanent structures
- 2) Existing piped watercourses
- 3) Larger watercourses
- 4) Urban or development land
- 5) Fences
- 6) Hedges
- 7) Trees and Bushes
- 8) Electricity poles, lighting columns etc.

6.1 <u>BUILDINGS AND PERMANENT STRUCTURES</u>

The power to determine any consent under this guideline has only been delegated to the committees.

It remains the policy of the Board that no buildings or permanent structures should generally be permitted within the 9.0 metre byelaw distance to any Board watercourse, excepting piped watercourses (see below). However where an existing building is located closer than the permitted distance, then consent may

be given to allow any extension to be placed up to a similar distance from the drain as the existing building.

6.2 EXISTING PIPED WATERCOURSES

Where a section of drain has been piped the Byelaw will normally be relaxed to allow buildings to be placed up to 4.5 metres from the centre line of the pipe. It will also allow fences in most cases to be placed above and along the line of the pipeline, but a condition will be placed on the relaxation that if at any time in the future the Board requires to carry out maintenance to the pipeline, the fences shall be removed and replaced at the expense of the Occupier, Ratepayer or the Landowner.

6.3 LARGE WATERCOURSES

On large watercourses (width greater than 9.0 metres brink to brink) no relaxation will be given for any obstruction within the 9.0 metre byelaw distance except hedges no closer than 6.0 metres where dredgings may be placed over the top (i.e. not residential).

6.4 URBAN AREAS AND DEVELOPMENT LAND

In urban areas or where new development is proposed adjacent to a medium or small drain, the Byelaw will normally be relaxed from 9.0 to 6.0 metres for fences, hedges, bushes, timber sheds and temporary structures as long as the remaining 6.0 metre width is left for the sole use of the Board for future maintenance of the drain. All buildings and permanent structures shall still be a minimum of 9.0 metres from the brink of the drain.

6.5 FENCES

Areas not covered by guidelines 6.1. to 6.4.

(a) Stock fences up to 1.2m high (post and rail / wire)

Machine drivers can work over and see through these types of fences and therefore the Byelaw will normally be relaxed on condition that they are located 1.0 metre back from the brink of the drain and access gates (minimum 3.6m or 12ft wide) are provided at each end.

(b) Solid fences above 0.4m high and fences in general above 1.2m high

Machine drivers cannot see through or cannot work over such fences and therefore the Byelaw will **not** normally be relaxed except where there is always suitable and safe access on the opposite bank and where the opposite bank owner is not unduly inconvenienced. Any consented fence shall be located a minimum of 1.0 metres from the brink of the drain. Access gates (minimum 3.6m or 12ft wide) and continued access behind the fence may still be required. The opposite land owner (if different to the applicant) will be asked for his/her comments and /or objections prior to any consent being given.

6.6 <u>HEDGES</u>

Areas not covered by guidelines 6.1. to 6.4.

Machines drivers cannot see through hedges nor work over high hedges and therefore the Byelaw will **not** normally be relaxed except where there is always suitable and safe access for all operations on the opposite bank and where the opposite bank owner is not unduly inconvenienced. Any consented hedge shall be located with its centre a minimum of 1.0 metre away from the brink of the drain and shall be maintained by the applicant so as not to encroach over the drain. Access gates (minimum 3.6 metres wide) and continued access behind the hedge may still be required.

The opposite land owner (if different to the applicant) will be asked for his/her comments and /or objections.

The applicant may opt out of maintaining the side facing the watercourse by paying a commuted sum to the Board.

6.7 TREES AND BUSHES

Areas not covered by guidelines 6.1. to 6.4.

If a landowner wishes to plant bushes or trees adjacent to a small or medium sized drain then the Byelaw will normally be relaxed to allow bushes to be placed 4.5 metres from the brink of the drain, and trees 6.0 metres from the brink of the drain where space is of premium to the applicant or similar planting exists along the drain.

6.8 ELECTRICITY POLES LIGHTING COLUMNS ETC.

Poles and columns adjacent to drains are inherently unstable and are not to be recommended. Wherever possible an alternative route should be found away from the drain. Where a suitable alternative cannot be found then the Byelaw may be relaxed on condition they are placed no closer than 1.0 metre to the brink of the drain and the minimum clearance below the wires is 6.0 metres.

7. PROCEDURE

- 1. The applicant shall apply in writing to the Board either by letter or on the application form provided along with a plan or diagram, any relevant details and the application fee.
- 2. An acknowledgment will be sent to the applicant within 15 days giving the date of the next appropriate Committee or Board meeting although a determination may be possible sooner under delegated powers.
- 3. The Board's officers will consider the effect on its current and future maintenance regimes, any foreseen future works to the drain and any environmental benefit.

- 4. The Board's officers will write to the opposite bank owner or occupier detailing any likely maintenance changes and requesting any comments or objections.
- 5. If no objections are received and the application falls within the delegated guidelines then the application may be consented, otherwise it will be deferred to the appropriate Committee or Board meeting.
- 6. Deferred applications and those falling outside the guidelines are determined by the relevant Committee or Board meeting.
- 7. The applicant is either notified in writing of a refusal or issued with two copies of the consent. The consent is not valid until the Board receive back one copy signed by the applicant.
- 8. The Chief Executive will report to the next Board meeting any delegated consents issued.

8. FURTHER GUIDANCE

Further information and application forms are available from the Board at the address below.

Black Sluice Internal Drainage Board

Policy No: 31

Publication Scheme

Review Dates:

Original Issue	16 th January 2013
Board Approved	6 th February 2013
Due for Review	27 th April 2016

INTRODUCTION

What is and why does, the Black Sluice IDB use a Publication Scheme?

The Freedom of Information Act 2000 ("the Act") gives a general right of access to recorded information held by public authorities and sets out exemptions from that right and places a number of obligations on public authorities. The Black Sluice Internal Drainage Board is deemed to be a non-departmental public body for the purposes of the Act. Further information about the Act can be obtained from The Information Commissioner (https://www.ico.gov.uk)

The Board is required to adopt and maintain a publication scheme setting out the classes of information it holds, the manner in which it intends to publish the information, and whether a charge will be made for the information. The purpose of a scheme is to ensure a significant amount of information is available, without the need for a specific request. Schemes are intended to encourage organisations to publish more information proactively and to develop a greater culture of openness.

What information is routinely available?

The IDB information is grouped into seven classes.

1. Who we are and what we do

Organisational information, structures, locations and contacts.

2. What we spend and how we spend it

Financial information relating to projected and actual income and expenditure, procurement, contracts and audited accounts.

3. What our priorities are and how we are doing

Strategies and plans, value for money indicators, audits, inspections and reviews.

4. How we make decisions

Decision making processes and records of decisions.

5. Our policies and procedures

Current written protocols, policies and procedures for delivering our services and responsibilities.

6. List and registers

All statutory and non-statutory registers.

7. The services we offer

Information about the services we currently provide including leaflets, guidance and newsletters produced.

How to access the information?

The information contained in each class may be accessed through a variety of means and in a number of formats where available. All information is available for inspection on request and by prior appointment, where appropriate copies can be made available. A charge may be applied to the information supplied; each case is considered individually. Information will be provided within 28 days, if the request is reasonable.

1. On the Black Sluice IDB web-site

Some information will be available on the web-site. This information is non-chargeable.

2. By e-mail

E-mail *mailbox@blacksluiceidb.gov.uk* with 'Freedom of Information Request' in the subject line.

3. By post To obtain paper copies of the information please contact:

Mr I Warsap, Chief Executive Black Sluice IDB Station Road Swineshead Boston Lincs PE20 3PW

Tel: (01205) 821440 Fax: (01205) 820671 http://www.blacksluiceidb.gov.uk.

Please note that where hard copies of information will normally be supplied upon request, multiple copies cannot normally be provided.

4. In person

Please contact the office to arrange an appointment.

Charges and Exempt Information

Charges may be imposed for the provision of some of the information within this publication scheme. Where a class contains information which may levy a charge this is made clear with a £ symbol shown below. In adopting this scheme there has been an effort to be as open as possible but there are instances where, for legitimate reasons, certain information is not available. Where this is the case the reasons behind the decision to exclude certain information is clearly stated. Justification for excluding information is made in consideration of the general exemptions contained in the Act, the Environmental Information Regulations, the Data Protection Act or where it may be of a confidential or commercially sensitive nature.

All copyright is reserved by the Board.

The Information Available:

1. Who we are and what we do

Constitution of the Board, including their structure & membership

Staffing Structure

Geographical area covered

Outline of responsibilities

Location of offices and contact details

2. What we spend and how we spend it (£)

Annual accounts

Audit of accounts

Revenue and capital spending plans

Procurement Regulations

Funding; details of drainage rates, special levies, grants and other financial contributions

Staff and Board members allowances and expenses

Contracts awarded and their value

3. What our priorities are and how we are doing (£)

Aims, objectives and plans

Performance against aims and plans

Programme of works

4. How we make decisions

Board meeting and sub-committee minutes

Public consultations

Reports of advisory groups

Environmental Impact Assessments

Assessment of flooding risks

Other publicly available reports

5. Our policies and procedures

Policies and procedures for the conduct of the Boards business

Policies and procedures about the provision of services

Policies and procedures about employment matters

Whistle blowing policy

Anti-fraud & corruption policy

Data protection policy

Freedom of Information Publication Scheme

Customer complaints procedure

Charging regimes and policies

6. List and registers (£)

Register of Drainage Infrastructure

Nuisance Register

Complaints Register

Rate Book

Electoral Register (for the purposes of an Election of IDB Members)

Register of Members' Interests

Register of Gifts and Hospitality

Members Attendance Register

Freedom of Information Act disclosure log

7. The services we offer (£)

Regulatory role
Byelaws
Information for landowners, developments and operations
Notices, leaflets and guidance
Media releases
Details of the services for which the Board is entitled to recover a fee together with those fees

Feedback

Feedback, comments or complaints about this publication scheme should be directed to the Chief Executive or the Chairman of the Board, forwarded to the address stated in section 3 above; How to Access Information - 3. By Post. If you are not satisfied that information is being published in accordance with this scheme you can refer your complaint to the Information Commissioner:

Black Sluice Internal Drainage Board

Policy No: 32

Data Protection Policy

Review Dates:

Original Issue	16 th January 2013
Board Approved	6 th February 2013
Due for Review	

INTRODUCTION

The Data Protection Act 1998 is designed to cover the collecting, storing, processing and distribution of personal data. It gives rights to individuals about whom information is recorded. This applies to all individuals whether they are an employee, member or a member of the public.

Employees and Board Members of Black Sluice Internal Drainage Board have a duty to be aware of the Data Protection Act principles in order to comply with the law on data protection.

Data Protection Principles

To meet the requirements of the Data Protection Act 1998, Black Sluice Internal Drainage Board fully endorses the eight principles contained therein, adhering to them at all times.

These principles are:

- Personal data shall be processed fairly and lawfully and, in particular, shall not be processed unless specific conditions are met.
- Personal data shall be obtained only for one or more specified and lawful purposes and shall not be further processed in any way incompatible with that purpose or those purposes.
- Personal data shall be adequate, relevant and not excessive in relation to the purpose or purposes for which they are processed.
- Personal data shall be accurate and where necessary, kept up to date.
- Personal data processed for any purpose or purposes shall not be kept for longer than is necessary for that purpose or those purposes.
- Personal data shall be processed in accordance with the rights of data subjects under the Act.

- Appropriate technical and organisational measures shall be taken against unauthorised or unlawful processing of personal data and against accidental loss or destruction of, or damage to, personal data.
- Personal data shall not be transferred to a country or territory outside the European Economic Area unless that country or territory ensures an adequate level of protection for the rights and freedom of data subjects in relation to the processing of personal data.

Black Sluice Internal Drainage Board's commitment to the Data Protection Principles

Black Sluice Internal Drainage Board will do the following to comply with the principles:

- Observe fully the conditions regarding the fair collection and use of information.
- Meet its legal obligations to specify the purposes for which information is used.
- Collect and process appropriate information and only to the extent that it is required to fulfil operational needs or to comply with any legal requirements.
- Ensure the quality of information used.
- Ensure that information held is erased at the appropriate time.
- Ensure that the rights of individuals about whom we hold information can be exercised fully under the Act, including:
 - The right to be informed that processing is being undertaken
 - The right of access to their personal information
 - The right to correct, rectify, block or erase information that is regarded as wrong
- Take appropriate technical and organisational security measures to safeguard personal information.
- Ensure that personal information is not transferred abroad without suitable safeguards.

Black Sluice Internal Drainage Board adheres to its commitment to Data Protection by:

- Allocation of specific responsibility for data protection to at least one person.
- Ensure that employees handling personal information are supervised appropriately.
- Requests for access to an individual's own personal information are dealt with in a timely and courteous manner.
- Record any incidents of breach in data protection policy and take disciplinary action as appropriate.
- Undertake regular review of management of personal information and update when necessary.

Access to personal information

For information about how to request subject access to personal information please contact: mailbox@blacksluiceidb.gov.uk (Fee applicable)
